OMNIPRIME
CONSTRUCTION

COMPANY OVERVIEW

OmniPrime Construction is a specialized construction company delivering advanced solutions in waterproofing, heat insulation, flooring systems, and construction chemicals. We focus on protecting and enhancing structures through high-performance systems designed for long-term durability and reliability.

With hands-on industry experience, our team understands the real challenges faced by residential, commercial, and industrial buildings from water leakage and heat penetration to surface deterioration and structural damage. Our approach is straightforward: identify the root cause and apply the most effective and reliable solution.

We combine high-quality materials, skilled workmanship, and modern application techniques to ensure every project meets the highest standards. Whether it is sealing a leaking roof, installing durable epoxy flooring, or restoring damaged concrete structures, we deliver results that last.

CEO MESSAGE

At OmniPrime Construction, our vision has always been clear — to provide reliable, long-lasting solutions that protect and enhance the value of every structure we work on.

In today's construction environment, challenges like water leakage, heat penetration, and structural wear are becoming increasingly common. Unfortunately, many solutions in the market are temporary and fail to deliver lasting results. At OmniPrime, we take a different approach. We focus on identifying the root cause of each problem and applying proven systems that ensure durability and performance in the long term.

Our strength lies in our commitment to quality, attention to detail, and dedication to customer satisfaction. Every project we undertake is treated with responsibility and professionalism, whether it is a small residential job or a large commercial project.

We believe that trust is built through consistent performance, and we strive to deliver solutions that our clients can rely on for years ahead.

I personally assure you that choosing OmniPrime Construction means choosing quality, reliability, and peace of mind.

— CEO, OmniPrime Construction

VISION & MISSION

Vision

To become a trusted leader in building protection and performance solutions, recognized for quality, innovation, and customer satisfaction, while setting new standards of durability and reliability within the construction industry.

Mission

To deliver reliable and long-lasting solutions in waterproofing, heat insulation, flooring systems, and construction chemicals by combining quality materials, skilled workmanship, and proven techniques. We aim to solve structural problems at their root and provide our clients with durable, cost-effective, and high-performance results.

CORE VALUES

QUALITY FIRST

We never compromise on quality. From materials to workmanship, every project is executed with precision and attention to detail to ensure long-lasting results.

INTEGRITY & TRANSPARENCY

We believe in honest communication and clear commitments. Our clients trust us because we deliver what we promise—no shortcuts, no hidden surprises.

CUSTOMER COMMITMENT

Our clients are at the center of everything we do. We focus on understanding their problems and providing solutions that truly add value.

DURABILITY & PERFORMANCE

We don't believe in temporary fixes. Our solutions are designed to provide long-term protection, strength, and performance for every structure.

PROFESSIONAL EXCELLENCE

Our team continuously improves skills, techniques, and knowledge to deliver work that meets modern construction standards.

OUR SERVICES

Waterproofing

We offer complete waterproofing solutions to protect structures from water leakage and seepage. Our expertise covers roofs, basements, bathrooms, foundations, and water tanks. Using high-quality systems such as bitumen membranes, polyurethane (PU) coatings, and cementitious waterproofing, we ensure durable and long-lasting protection against moisture damage.

Flooring Solutions

We provide high-performance flooring systems tailored for residential, commercial, and industrial applications. Our services include epoxy flooring, polyurethane (PU) flooring, and sports flooring, offering excellent strength, seamless finish, chemical resistance, and long-term durability.

OUR SERVICES

Continued...

Construction Chemicals

We specialize in supplying and applying construction chemicals for improved performance and durability of structures. Our services include bonding agents, repair compounds, grouting materials, and protective chemical coatings to enhance strength and prevent deterioration. Our solutions are aimed at extending the lifespan and improving the quality of concrete structures.

Heat Insulation Solutions

Our heat insulation services reduce heat absorption and improve indoor comfort using reflective coatings and insulation systems such as heat reflective paints and thermal sheets. This helps lower roof temperatures, improve energy efficiency, and create a more comfortable environment.

OUR PROJECTS

The following projects highlight our expertise in waterproofing, heat insulation, flooring, and concrete repair, delivered with a focus on quality workmanship and lasting structural performance.

Khaadi Mardan

MATERIALS & SYSTEMS

We provide a wide range of construction products and systems. In addition to our in-house materials, we can source and arrange specialized products based on project requirements.

01

Waterproofing

- Geomembrane
- Crystalline Waterproofing Coating
- Polyurethane-Based Waterproofing
- Bitumen Membrane (Awazel)
- Cementitious Waterproofing Coating
- Liquid Applied Bituminous Coating
- Acrylic Elastomeric Coating

02

Admixtures

- Accelerating Admixture
- Plasticizers
- Polycarboxylate Ether (PCE)
- Integral Crystalline Waterproofing (ICW)
- Set-Retarding Admixture
- High-Range Water Reducer (Superplasticizer)

03

Specialized Flooring

- Polymer-Modified Bonding Agent
- High-Build Epoxy Resin Flooring System
- Structural Epoxy Anchoring & Doweling Resin
- Self-Leveling Cementitious Underlayment
- Epoxy-Cementitious Bonding & Anti-Corrosion Primer
- Polyurethane (PU) Screed or Coating System

MATERIALS & SYSTEMS

Continued...

04

Sealants & Fillers

- PVC Water Stoppers
- Neutral-Cure Silicone Joint Sealant
- Pre-molded Compressible Joint Filler Board
- Elastomeric Rubber Waterstop
- Polyurethane (PU) Elastomeric Joint Sealant
- Multi-Component Polysulphide Sealant

05

Sports Flooring

- Point-Elastic (PVC), Cushioned Flooring
- Multi-Layered Acrylic Sports Surface
- Seamless Pad-and-Pour Polyurethane (PU)
- Synthetic Turf System (Polyethylene/PP)
- Area-Elastic Hard Maple Wood Flooring
- High-Impact Rubber Sports Flooring

06

Construction Chemicals

- Structural Epoxy Bonding agents
- Polymer-Modified Cementitious Repair Mortar
- High-Performance Anticarbonation Coating
- Low-Viscosity Structural Epoxy Injection Resin
- Steel Fiber Reinforced Polymer (SFRP) Laminates
- Carbon Fiber Reinforced Polymer (CFRP) Fabric

OUR CLIENTS

We are proud to have worked with a wide range of residential, commercial, and industrial clients. Our commitment to quality, reliability, and long-lasting solutions has helped us build strong and trusted relationships in every project we deliver.

OUR PARTNERS

We are proud to collaborate with trusted partners, suppliers, and industry professionals who share our commitment to quality and excellence. Through strong partnerships and mutual trust, we continue to deliver reliable solutions and successful projects across residential, commercial, and industrial sectors.

SERVICE AREAS

We provide our services across major cities and surrounding areas, delivering reliable and high-quality solutions wherever our clients need us.

WHY CHOOSE US?

At OmniPrime Construction, we deliver reliable and long-lasting construction solutions with a focus on quality, durability, and performance. We combine skilled workmanship, modern techniques, and quality materials to ensure every project is completed with precision and care. From waterproofing to flooring and concrete repair, we provide tailored solutions that ensure long-term value and client satisfaction.

— Key Reasons:

- ◆ Skilled and experienced workforce
- ◆ High-quality materials and systems
- ◆ Focus on long-term durability
- ◆ Professional and reliable service
- ◆ Customer-focused approach
